

EDUCATION

Banasthali Vidyapith <i>Bachelor of Technology in Computer Science and Engineering; CGPA: 9.58/10</i> Delhi Public School <i>12th Grade; Central Board of Secondary Education; Percentage: 92.83%</i> <i>10th Grade; Central Board of Secondary Education; Percentage: 97.2%</i>	Newai, Rajasthan <i>2024 – 2028</i> Meerut, Uttar Pradesh <i>2023</i> <i>2021</i>
--	---

SKILLS SUMMARY

- **Languages:** C, C++, Java, Python, PHP, SQL, JavaScript, TypeScript, Bash
- **Frameworks:** React.js, Redux, Node.js, Express.js, Spring Boot, Bootstrap, Tailwind CSS, jQuery, EJS
- **Tools:** Git, GitHub, npm, Docker, Apache Kafka, GitHub Actions
- **Platforms:** Windows, Linux
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Concepts:** Data Structures & Algorithms, RESTful APIs, HTTP, Object-Oriented Programming (OOP), MVC Architecture, RBAC, Microservices, Event-Driven Programming, JWT Authentication, OAuth 2.0, Generative AI

EXPERIENCE

Software Development Engineer (SDE) Intern – Strive Partners Completion Letter – Developed RESTful APIs using Java Spring Boot, implementing structured JSON responses, request validation, and exception handling for backend application workflows. – Contributed to building responsive and reusable user interfaces using React.js and TypeScript, leveraging Redux for state management and contributing to Role-Based Access Control (RBAC) for multi-user applications. – Contributed to feature development by integrating React frontend components with Spring Boot services, implementing OAuth 2.0/JWT-based authentication, working with PostgreSQL databases, and exploring Apache Kafka for asynchronous event-driven communication.	May 2026 – July 2026
Open Source Contributor – Submittly (RPI) – Contributing to Submittly, RPI's open-source grading platform serving thousands of students – 2 PRs merged into production. – Fixed a timer overflow bug in the gradeable submission flow by clamping progress values PR #12567 . – Improved keyboard accessibility in the Discussion Forum by refactoring TAB/ESC key handling using event delegation PR #12549 .	Jan 2026 – Present

PROJECTS

DSAverse	<i>MongoDB, React, Express, Node.js, Bootstrap, JavaScript, APIs, Generative AI</i>
– Built a MERN stack DSA tracker with 450+ curated problems, a code optimization module, video tutorials, and real-time progress tracking, enabling an interactive and structured learning experience.	
EnvGuard	<i>TypeScript, Babel AST, Node.js, npm, GitHub Actions</i>
– Built and published an open-source CLI tool that performs AST-based static analysis to detect dead, missing, empty, and duplicate environment variables, with framework-aware rules for Next.js, Vite, React, NestJS, and Remix.	
IntelliChat AI	<i>Node.js, Express.js, JavaScript, HTML5, CSS3, REST APIs, OpenRouter API, Pollinations AI</i>
– Built a full-stack AI assistant with MVC architecture supporting context-aware chat, vision-based image analysis, and text-to-image generation through a responsive Vanilla JS frontend with secure file upload handling.	

ACHIEVEMENTS AND CERTIFICATIONS

• Google The Big Code 2026 Semi-Finalist — Among the top 1,500 students selected nationwide	Result
• Selected as a Mentee for the Cisco Women in Technology Mentorship Program (May 2026 – July 2026)	Certificate
• Reliance Foundation Scholar (2024 – Present) — Undergraduate Scholarship for academic excellence and leadership potential	Result
• Top 10 Teams (250+ teams), Hack With Rajasthan — 24-hour hackathon by AIC Banasthali Vidyapith × Devnovate	Certificate
• Second Runner-Up, Lingua Hackathon , Mayukh Tech Fest, Banasthali Vidyapith	Certificate
• Rank 30, Banasthali Vidyapith Entrance Exam	Result
• Gold Medal for Academic Excellence across seven consecutive academic sessions	Certificate
• JPMorgan Chase & Co. Virtual Experience Program (via Forage)	Certificate
• Goldman Sachs Virtual Experience Program (via Forage)	Certificate
• Oracle Certified Foundations Associate	Certificate

CLUBS

Algobyte Club, Banasthali Vidyapith <i>Technical Member</i> ID card – Collaborated on building the official Algobyte Club website — implementing user authentication, developing frontend pages, and managing data using MongoDB. – Contributed to the technical coordination of Sangam 3.0 , an offline senior–junior interaction initiative, assisting in session setup and smooth on-ground execution. – Spearheaded the organization of Hack the Horizon 2.0 , a 24-hour hackathon — managing infrastructure, real-time troubleshooting, and end-to-end participant coordination.	August 2024 – Present
